WORK EXPERIENCE

HUAWEI

Tools and Automation Engineer

Victoria Island, Lagos
January 2023 - Present

- **Created** custom scripts and tools to automate repetitive tasks, resulting in significant time and resource savings.
- **Collaborated** with cross-functional teams to identify automation opportunities, gather requirements, and develop solutions tailored to their needs.
- **Integrated** monitoring and logging tools into existing systems, enabling proactive identification and resolution of issues.
- **Assisted** in the migration of applications and infrastructure to cloud platforms, optimizing scalability and cost-effectiveness.

FREELANCE

Frontend Developer

Remote
December 2021 - Present

- **Developed** 15+ **responsive** web applications using modern frontend frameworks such as **React** and **Next JS**, ensuring optimal performance and a seamless user experience.
- Collaborated with UX/UI designers and backend engineers to translate wireframes and prototypes into functional, visually appealing interfaces.
- **Optimized** website performance by identifying and resolving performance bottlenecks, minimizing load times, and improving overall responsiveness.
- Collaborated with the **backend** team to integrate frontend applications with **RESTful APIs**, ensuring seamless data flow and synchronization.
