PROFESSIONAL SUMMARY

Experienced in **React** with 2 years of expertise, I focus on crafting interactive interfaces and responsive web apps. My dedication to clean code and user-centric innovation drives me to enhance user experiences effectively.

PROFESSIONAL SKILLS

SOFT SKILLS: Critical Thinking, Multi-tasking, Problem Solving, Testing and Debugging Performance, Optimization, Time Management, Good Communication, Team Player

TECHNICAL SKILLS: React, React Router, Figma, TypeScript, JavaScript, Tailwind CSS, SASS, Bootstrap, Git, SQL, HTML

WORK EXPERIENCE

System Software Engineer, Huawei Technologies | Victoria Island, Lagos | January 2023 - Present

- **Utilized** JavaScript, SQL, custom **HTML, CSS**, and Python to develop custom scripts, dashboards, and tools, automating tasks such as ticketing and reporting. This led to a 20% reduction in manual labor and resource utilization for clients.
- **Collaborated** closely with cross-functional teams to pinpoint automation opportunities, elicit requirements, and deliver tailored solutions that met their specific needs.
- **Integrated** monitoring and logging tools seamlessly into existing systems, enabling proactive identification and resolution of operational issues.
- **Played a pivotal role** in the migration of web applications and infrastructure to cloud platforms like OWS (Huawei Cloud), strategically enhancing scalability and cost efficiency.

KEY PROJECTS

- **Isoc Operations Dashboard:** Designed and developed a shift operations dashboard to monitor user activity and ticket closures across different shifts.
- **NSMC INC Dashboard:** Developed a dashboard to monitor the daily status of tickets.
- **SHO Monitor:** Developed a dashboard to display counts and monitor daily tickets raised, optimizing performance by 30%.

Technologies**:** Vanilla JavaScript, Vue, HTML, CSS, OWS, SQL

Frontend Developer, Freelance | Remote | February 2022 – Present

- **Led the development of 10+ responsive** web applications such as housing, booking, portfolios etc. using modern frontend frameworks like **React**, ensuring optimal performance and a seamless user experience.
- **Worked closely** with UX/UI designers to transform **wireframes** and **prototypes**, including those from platforms like Figma, into functional and visually captivating interfaces.
- **Enhanced** website performance by optimizing tools like **ESLint** and **Webpack**, adeptly identifying and resolving performance bottlenecks to minimize load times and enhance overall responsiveness.
- **Fostered** collaboration with the backend team to seamlessly integrate frontend applications with **REST API** integrations such as **Axios**, ensuring smooth data flow and synchronization.

KEY PROJECTS

- **Peter Ibeabuchi portfolio:** Designed and developed a professional portfolio for a data analyst.
- **Talentpoel website:** Embedded Google Sheets into form pages, integrated a YouTube player, and optimized website images.
- **Deni Portfolio:** Designed and developed a professional portfolio for a product designer.
- **Real Estate Website:** Implemented admin dashboards and UI designs using Ant Design, as well as developed payment session pages.
- **Travel Booking Website:** Developed a booking platform for hotels and flights.

Technologies**:** React, Next JS, Tailwind CSS, React Router, Ant Design, Figma, Typescript, Rest API, Axios.

EDUCATION

Bachelor of Engineering in Civil Engineering
University of Benin
Graduated 2019
